Americans in Canada Will Have To Serve

Active War Service Taken to Heart
Up U. S. Citizens For Military Service

That all Americans who found that by living in Canada "they were" they would avoid the operations of the Conscription Act of that country will have to realize now, however they should not, is now made certain by the fact that the authorities in regard to about affected.

In Canada, there have been thousands of people who say that they are Americans and that they are not liable for service under the Canadian Military Service Act. This view was all right until a short time ago when a special treaty between the two countries was formed. Now they have no excuse to give.

Some time ago the American Government sent out a "questionnaire" which has numerous questions—eight pages of them—which had to be answered and then sent to an expert. In many cases these men, who were liable for military service, did not fill out the forms. The authorities are taking this as a guide to those who are trying to slip out of their duty and are making a determined effort to reach them on. The police, who are now organized to round up absentees of the Military Service Act, will be hard on this work. By the terms of the reciprocal treaty "all citizens" are liable to the law of the country where they are living. Both kinds of citizens will be rounded up and made to serve in the allied armies.

NUDE DANCER SHOCKS HER AUDIENCE

New York, March 2.—Helen Miller, who directs a school for dancers at 746 Madison avenue, danced nude yesterday afternoon at the Metropolitan. It was an exhibition which, if it had been held in America, would have been regarded as a scandal, and which has been regarded as a scandal in America. The dancer, who is a woman of about 25 years of age, was dressed in a costume of white and gold, and was dancing in a room which was filled with people. The audience was shocked by the sight of the dancer, and many of them left the room. GRAVES OF THE FALLEN

The Imperial war graves commission has decided that, in the event of an epidemic on the graves of soldiers and soldiers abroad, the principal of the cemetery should be observed. They were strongly of opinion that no distinction should be made in the respect between the graves of officers and men, and that the whole should be under the same rule. SEYTOR VISITS THE YUKON

DAWSON, Yukon, March 1.—A phenomenon of wide scientific interest occurred yesterday night at 8:45 o'clock when a great meteoric shower burst forth from the heavens, making the country as light as day. There was an explosion which threw a flood of light everywhere. The whole place was lit up for several seconds. It is known by telegraphic reports received here to have been from Fairbanks, Alaska, to Carmack, Yukon Territory, a distance of approximately 400 miles.

AMERICAN HANSMAN'S DEATH?

Fort Hope, March 2.—Did Mr. Michael Hansman, who has just passed away, have lived with a woman and his wife, who survives him, would have celebrated the sixty-third anniversary of their wedding. Mr. Hansman was in his eightieth year when he died. He was a man of 1000, he had resided here since he was 10 years of age, and was a prominent member of the local community.

Year Rubbers

For the Sake of ECONOMY On the grounds of HEALTH Because of their COMFORT

WHEN you consider the enormous advantage in the price of everything in the world and the wonder increase that Rubbers cost so little.

As a matter of fact, Rubbers have advanced less than any other commodity of general use. They are a very real economy for every member of the family.

RUBBERS mean dry feet—and when your feet are dry, and warm, you are safe from cold and gripe.

Everything points to an unusually wet Spring, this year. Look to your Rubbers.

See that those you are wearing now are in good condition; or get new ones at once, and be ready for the Spring thaws.

SO insure foot ease and comfort by having the right Rubbers for your shoes.

Don't buy a shapeless pair that can be pulled over any boot—but get the exact style and shape for each pair of shoes you have.

Trim-fitting Rubbers are easy on the feet—wear better themselves—and make shoes wear better, too.

There's a style and shape for every shoe—for men, women and children—in these six brands of staunch, well-fitting Rubbers, carried by the leading shoemen:

MRS. JANE BURREL An Appreciation

Mrs. Jane Burrel, who recently left Belleville, Miss. Campbell, of Vancouver, passed away at the advanced age of ninety-two years, was probably the oldest resident of Belleville. She was born in the town of Belleville, and was the daughter of the late John Burrel, a pioneer settler of the town. She was a woman of great character and was highly respected by all who knew her. She was a member of the Methodist Church and was active in its work. She was a woman of great character and was highly respected by all who knew her.

CONVICT HIM IN A WORKSHOP

There was quite a stir at the Kingston penitentiary one night last week when it was found that a convict was missing.

It was during the night for the night, and the guard, who had a good deal of men doing some special work, was on duty. He was on duty at the time, and he was on duty at the time. He was on duty at the time, and he was on duty at the time. He was on duty at the time, and he was on duty at the time.

NO PROTESTS NOW.

**SUPT OF ONTARIO COUNTY
ROADS.**
A special sitting of the Ontario County Council at Whitby, Mr. R. L. Mowbray, Reeve of the township of Pickering, was appointed Superintendent of the county good roads system at a salary of \$1,400 per annum. Mr. Mowbray was not an applicant, but his friends nominated him, and the Councilors elected him over several other nominees. Mr. Mowbray at once resigned his position as Reeve of the township of Pickering, and a by-law was put through confirming his appointment as Superintendent of Good Roads.

Farms Will Suffer From Lack Of Labor This Summer

Grand Jury Takes Up Question of Food Production—Recommends that Government Appoint Commissioners to Organize Labor of Country and Place Where Most Needed

At the sitting of the High Court yesterday, Mr. J. P. Hill, as foreman of the Grand Jury, made the presentation of that body which was acknowledged by the Lordship, Hon. Justice Ross. The jury were then formally discharged. The presentation was as follows:

To the Honorable Mr. Justice Ross: Your Lordship—We, the Grand Jurors for the Supreme Court of Ontario, High Court Division, do hereby leave to present our report as Grand Jurors as follows:

We desire to convey our thanks to your honor for your very clear and concise instructions upon the law governing matters which have before us for consideration and also for the assistance of the Grand Jurors for the County of Hastings, who have so ably assisted us in the discharge of our duties.

We desire to express our thanks to the officials of the county for their assistance and attention shown to us during the time we were performing our duties.

Institutions Visited.

We visited the County Gaol and found everything in a neat and clean condition, the building well heated and the inmates apparently in good health and contented. We found that there were 11 male prisoners and no female prisoners. We found Governor Ker and Major Kerchman of the militia people in the right place.

The House of Refuge was visited and we desire to congratulate the County of Hastings upon this well conducted home. We found everything in first class condition, the inmates clean, contented and well cared for and we consider Mr. Wilson, superintendent, and Mr. Wilson, matron, very competent and suitable persons for the work undertaken by them.

There were at the time of our visit 26 female inmates all apparently contented and happy.

We visited the Children's Shelter and we were pleased to note the new building in which the occupants have recently been housed. We found everything neat and clean and we believe that in Captain T. D. Ruston and his good wife, Mrs. Ruston, the County have most efficient officers, particularly well adapted to the performance of the work in hand. We desire to put on record our appreciation of the efforts by Thomas Huckle and the other benefactors to the Shelter and their institution which deserves all manner of praise.

At the time of our visit there were 42 inmates from two months to sixteen years of age.

We visited the Belleville Hospital and found every thing in perfect condition. The Superintendent, Miss Gough, and her able staff painstaking and careful in their management of the institution and we believe the time and attention of Miss Gough was well paid to be one of the best in the Province.

The only complaint which was made to us was the urgent need of money and funds to carry on the work undertaken by the superintended and staff of the institution.

We paid a visit to the Ontario School for the Deaf and could not help but be struck by the well kept surroundings and the efficient condition in which everything was found and it is some gratification to note the efforts and the well kept condition of the institution and its surroundings and the condition of advancement to which we found some of the classes of pupils in nothing short of marvelous, and reflects great credit upon the system of teaching in force in the institution and in Dr. Coughlin we believe the school has a most competent superintendent. At the time of our visit there were 250 children in attendance, all apparently healthy and very happy.

Production and Economy.

We were all of the opinion that the distribution of labour has perhaps not been fairly apportioned having regard to farm conditions and that many of the farms during the coming season may not necessarily suffer from lack of labor without which the food resources of the country cannot be maintained in their efficiency and we believe that the Government of the country should take the agricultural interests in making some systematic provision for the placing of laborers upon the farms where needed, without which the land must fall short of the supplies necessarily required for the country's needs, although we believe much has been done in the way of food control, we still are of the opinion that much activity is required in that direction and that co-operation in order to curtail waste and encourage more efficient use of the food must be urgently needed for shipment to our foreign enemies and that some secondary substitute must be introduced in order to supply and take the place of the articles most urgently needed overseas. We would advise the Government to appoint a proper commission to organize the labour of the country and place it where most needed.

All of which we must respectfully submit.

CITES HEBRAIC LAW

Newly Married St. Louis Man Claims Emptiness

ST. LOUIS, March 8.—A question regarding the Bible—Deuteronomy, chapter 24, verse 5—was cited by St. Louis in his paper for example which the district board here now has under consideration. The passage reads: "When a man takes a new wife, he shall not go out to war, neither shall he be charged with any business, but he shall be free at home for one year, and shall cherish his wife which he has taken. This is to build up the land." This is held to be the first time a question of this kind from the old Hebrew law has been so cited.

For Seditious Statements

Slandering the British Army and Praising the Germans To The Detriment of Recruiting

Heavy Fine Imposed.—At the conclusion of the High Court's morning session Charles Hawkes was found guilty of uttering seditious statements, was called upon to give sentence.

His Lordship said it was rather difficult to decide what punishment should be meted out in this case. Hawkes had made a recommendation for leniency and a largely signed

the accused. In view of the fact that he would act accordingly and he thought that it would deter others from making statements of a seditious nature, especially at this time when this country was involved in war. He thought the ends of justice would be served by imposing a fine large enough to make him realize the gravity of the offence. He imposed a fine of \$100.

stated that she was in Mr. Taylor's house when the accident occurred. She was in the house about 15 minutes after the arrival. When she came in, she went and got a gun from behind a door. Whilst she was breaking the gun it discharged. Burton Cole was on a sofa near James when the gun exploded. Burton Cole was up stairs at the time he was frightened and soon after fell the house.

John Taylor, testified that he resided near Mr. Taylor's and on the night of the accident he was first called to arrive after it occurred. The boy, Burton Cole, was dead when he was taken to the hospital and did not see any of the children as they were all up stairs.

Thomas Taylor, testified he lived near Mr. Taylor, and knew James. The first witness knew of the accident was James Taylor, who came to Mr. Taylor's house and was much excited. James said he had shot Burton Cole. Whom did not see a gun when he went into the house. He testified that the lad, Burton Cole, who was lying on the sofa, William fell for his pistol but could not find any. Did not question James about the accident. Witness went James over to Burton street to phone for a doctor.

Charles Lake, testified that on the night of the accident he was asked to go to Mr. Taylor's house, by Mr. Taylor. He saw a gun standing behind a door. The lad, Cole, was lying on a sofa. Never heard James make any statement.

Shot The Dog.

Ray Warren, testified that he was sleeping at No. 9 Bette street, on the afternoon of the accident, he shot a dog. He only placed one shot in the dog. After he shot the dog he extracted the empty shell. Witness was at Mr. Taylor's house after the accident. The gun he used was empty.

Purely Accidental

James Taylor, testified that he was heading gun for some time. The gun produced, witness purchased some gun months ago. The gun were used as kept in witness' room, but on the night of the accident they were brought down to shoot a dog. After Ray Warren had used the gun, witness closed the door where another was standing. A continuing cartridges was shot the gun, behind the door. In the latter's opinion of witnesses that the gun came in the house and broke the gun to close it. As he was picked up the breach lock it exploded. He did not take any shell out of the gun, but the cartridges came to be in the gun he could not tell, whether the gun was cocked or not. Burton Cole was waiting on a couch and he fell back on the couch after he was shot. Burton had seen the Cole boy pick up the gun, but was unable to say whether he could break a gun or not.

The Cole boy was about five feet four from the gun, when it exploded. This complicated the taking of evidence and the coroner briefly referred same, stating that it was apparent that the deplorable affair was purely an accident.

An Address Of Appreciation

Rev. C. C. Smith Honored by Belleville Association At Luncheon

Before taking his departure from Belleville, the Rev. C. C. Smith, the retiring pastor of the First Baptist Church, was entertained to luncheon at Mrs. Wallace's lunch room by the members of the Belleville Ministerial Association. All present expressed the deepest appreciation of Mr. Smith's able address given at his departure. The following address, signed by the members, was presented to him:

Rev. C. C. Smith, B.A.
Dear Brother:—The undersigned members of the Belleville Ministerial Association, desire to express to you on this occasion the genuine regard we feel at your departure from our city and fellowship.

Your pastorate in this city has been blessed with almost success in the building up of the religious life of your own congregation and no less marked in the contribution to the Kingdom of God in a truly Christian sense.

As a leader in social service work, you have given to the people a new and broader view of the Kingdom of God. As a leader in social service work, you have given to the people a new and broader view of the Kingdom of God. Great Demand For Maple Syrup Get Out The Old Sap Bucket

Before the war many owners of maple sugar maps groves had dropped out of the business or continued in it with a few trees. This has resulted in a great demand for maple syrup. The manufacturers of maple syrup are now producing a large quantity of maple syrup. The manufacturers of maple syrup are now producing a large quantity of maple syrup.

Our London agents have urged us to get a trade established for maple syrup as early as possible so that they could get a large export market for it before the close of the war, after which they expected to do an enormous business.

It behooves all those who have maple trees available to get them into this year and make the most of them. The manufacturers of maple syrup are now producing a large quantity of maple syrup. The manufacturers of maple syrup are now producing a large quantity of maple syrup.

The result of this legislation is to place the maple sugar industry in a very bad position. No measures of maple sugar and syrup are now allowed, even if branded as domestic. No food product, no matter what its composition, can be advertised or branded by any expression containing the word "maple."

That is the makers of genuine maple sugar and syrup have been forced to make a new brand. The makers of genuine maple sugar and syrup have been forced to make a new brand. The makers of genuine maple sugar and syrup have been forced to make a new brand.

Up to the present time 75 per cent of the Canadian maple products have been exported to Canada. Most of the balance has been exported to the United States. In addition there is now being developed the foundation for a national market in Great Britain and France, where maple sugar has been produced by Canadian growers.

Thousands of pounds have been sold to the Canadian army and navy by the U.S. Army and Navy in London report a growing British demand for maple sugar. This is an enormous trade after the war.

"First Curious of Maple Sugar." "Last year" said the manager of one of Canada's largest maple sugar industries, "we purchased from the City of London, and had 15 million pounds of maple sugar. The great bulk of this sugar has been used for home consumption."

United States and Great Britain, and have arranged to take from 25 to 30 million pounds per annum in additional maple products. It is estimated that the manufacturers of maple syrup are now producing a large quantity of maple syrup.

"At the present time we have in maple products, we understand, are able to quote on the stock we produce. We are confident, however, that if a larger production could be obtained, the demand would be so great as to open up to us our export trade."

Half Million Gained From Temperance Act
TORONTO, March 9.—The report of the Ontario Board of License Commissioners just issued shows 1,200 standard hotels in October 2nd, 1917. The revenue from the one which the majority of the girls have chosen to adopt, each girls in the often re-worked farm's wife, the two ten hours' work and not be in addition to it. In many cases, where there is plenty of help, or when the girls heard themselves in a small cottage, this was not required. They are to agree to do any farm work, with the exception of their strength. A clause to that effect, on the advice of Miss Winsted Harvey, of the Ontario Government, has been inserted in the contract.

Already Miss Harvey has had requests from many farmers for the girl workers. She has now thirty-five outside. One farmer wants a dozen, and will turn over a cottage and supply a housekeeper for the girls, owing to ill-health, and may seek to obtain Jews from Toronto instead.

The Flux Growers' Association desire a shortening of the labor for pulling owing to ill-health, and may seek to obtain Jews from Toronto instead.

The revenue derived from fines under the Ontario Temperance Act in the Province is \$124,200. This is the same as for the standard of hotel licenses, sales of condensed milk, and the revenue from the hotel year ending October 31, 1917, was \$129,231. The expense for the year ending October 31, 1917, was \$129,231. The expense for the year ending October 31, 1917, was \$129,231.

OF ADVERTISING.—The Toronto Globe contains an advertisement for the sale of a large quantity of second-hand clothing, which is being sold at a very low price. The advertisement is signed "J. H. Smith" and is located on page 4 of the Globe.

BAD FOR THEM.

By a majority of its vote the Chamber of Commerce of the United States has asked the Allies to inform the business men of Germany that they will be boycotted after the war unless they bring the German Government into freedom accord with democratic ideas. There is far more common sense in this resolution than in all the proposals of unconditional Free traders against interference with the economy of the world after the peace, says the Toronto News. All that is really in the world will not help to win the war. Civilization must itself avail of every possible means of convincing the German people that war is bad business for them.

WOMAN, LOVELY WOMAN, AND MAN, VAIN MAN.

The Toronto Telegram refers to one of the proposals of the Women's Conference at Ottawa in the following editorial:

Woman, lovely woman, inspires the feminine war conference at Ottawa to demand that Canada's supply of food and munitions be restricted to the capacity of the Canadian food mills unless the people of the British Isles will sign the pledge against beer and other drinks.

Man, vain man, has associated himself with proposals just rejected by Parliament of Canadian women.

Australian farmers have to accept \$1.12 per hundred for their wheat if the Women's War Conference is able to enforce its demand, farmers can only sell such wheat as Canadian flour mills can grind into flour for the war.

Woman, lovely woman, comes out of the west with the suggestion that \$75,000,000 worth of beer be sold off the cash price of the western wheat and that Canada should cut off a supply of wheat that would feed swine and other hogdomes people, in order to force the abolition of the beer right in Britain.

HIGH COST OF PAPER.

The Toronto Globe comments, as follows upon the enquiry into the cost of producing paper for newspapers in an effort to arrive at an estimate of a fair selling price to Canadian publishers:

Newspaper readers are entitled to know that the cost of paper is not the only factor in the investigation as to the price of newspaper paper, to be resumed at Ottawa next week before Mr. Pringle, Paper Commissioner of the Dominion Government. The publishers of Canada believe that the price temporarily fixed by Mr. Pringle for the paper of the Dominion Government is too high. The publishers of Canada believe that the price temporarily fixed by Mr. Pringle for the paper of the Dominion Government is too high. The publishers of Canada believe that the price temporarily fixed by Mr. Pringle for the paper of the Dominion Government is too high.

At the present time an inquiry is in progress before the Federal Trade Commission of the United States to determine a reasonable price for newspaper stock of the border. Coming from the manufacturers of paper in the United States, the price would be about \$1.50 per hundred pounds. The bearing of this important testimony upon the Canadian situation is that, because of better facilities for manufacture, the Canadian mill can make newspaper for 25 cents per hundred pounds less than the mills of Maine. Thus it would appear that the American companies, which are in the paper-making business for the purpose of earning dividends, are a product for thirty-five cents per hundred pounds less than the price fixed by the Canadian Paper Commissioner, with the consent of the not a paper of the Government as a temporary price pending final inquiry as to cost of material and labor.

The one saving clause in the present regulation is that the paper-makers are permitted to charge up to 10 per cent more than 30 cents per hundred pounds. The bearing of this important testimony upon the Canadian situation is that, because of better facilities for manufacture, the Canadian mill can make newspaper for 25 cents per hundred pounds less than the mills of Maine. Thus it would appear that the American companies, which are in the paper-making business for the purpose of earning dividends, are a product for thirty-five cents per hundred pounds less than the price fixed by the Canadian Paper Commissioner, with the consent of the not a paper of the Government as a temporary price pending final inquiry as to cost of material and labor.

The publishers have already shown, and will be able to establish for the future, that they are earning extraordinary profits on the capital actually invested by them, and in some cases on capital that has been wasted to the point of exhaustion. The newspaper readers who believe that the Press does not perform a useful public service will be interested to learn that the conflict between the Press and one of the biggest of the "Big Five" which seems to have powerful and vigilant friends at Ottawa.

CONSCRIPTION, CONFISCATION AND TAXATION.

During the regime of the late Conservative Government at Ottawa Liberal politicians and their followers have been busy with the confiscation of wealth. Tax, without money, was their cry in and out of the rich man, of being too easy on the manufacturer and dealer, in comparison, with the heavy burden on the wage-earner. As a result of such a clamorous agitation the laws were increased, income tax, property tax, and the like, were increased, income tax, property tax, and the like, were increased, income tax, property tax, and the like, were increased.

full and plenty share of the revenue-producing power of the nation. It has reached a point where a halt should be called and a new policy of industry should be adopted. The industrial load is lightened, not only in the interest of those in charge of the management, but also in the interest of the wage-earner, who is bound to be the govt. of a powerful reaction force. The industrial load is lightened, not only in the interest of those in charge of the management, but also in the interest of the wage-earner, who is bound to be the govt. of a powerful reaction force.

The Wolves Were Hungry

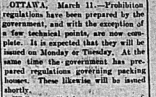

Angus McGirr and his wife, Mrs. McGirr, who live in the Canadian Pacific Railway main line at Kamboozie and who have been in the area for 10 years, got into dog trapping and hunting traps and set them out in the area. Several traps before the snow came down shut them in. When they came out, they found the traps set and not an excessive number of animals. The rabbits didn't get into the traps. While no official announcement is yet to hand, it is anticipated that the regulations in both cases will, in the main, follow lines laid down some time ago. An official statement issued in December declared that the importation of intoxicating liquors would be prohibited after Dec. 24, 1917, except in the case of liquor already purchased and on the way. It was also announced that "the transportation of liquor into any part of Canada wherein the sale of intoxicating liquor is illegal will be prohibited on and after April 1, 1918."

Since this announcement was published there have been numerous delegations to Ottawa. Grape growers have asked that native wines should be exempted. Berries have asked that they be permitted to manufacture wines. However, there have been made for an extension of the time limit of April 1, and the suggestion put forward that some compensation should be forthcoming for loss on stocks in hand.

In regard to cold storage companies it was announced, following this investigation, that excess profits would be taxed. Dividends not exceeding 7 per cent. were to be free of taxation.

Dividends between 7 and 15 per cent. would be liable to taxation of one-half of the excess over 7 per cent. Dividends over 15 per cent. were to be liable to taxation to the whole amount over 15. Thus the highest dividend possible was to be 11 per cent., i.e., 7 per cent. plus one-half the difference between 7 and 15.

Slight Stroke Of Paralysis

Trenton, Ont., March 11.—A very interesting report has been received from Mrs. Pringle in regard to her recovery from partial paralysis. This was a most extreme case, for doctors told her to expect from three years to five years before she could be able to walk.

One can scarcely imagine stronger evidence of the restorative influence of Dr. Chase's Nerve Food.

Mrs. C. Pringle, Queen street, Trenton, Ont., writes:

"About five years ago I was troubled with my stomach, there was a sort

of paralyzed feeling across it and up my left side, and my heart seemed almost to stop beating. I called in the Doctor, and he thought it was symptoms of a stroke. My stomach kept getting worse. At times the pounding would be intense, almost unbearable and I thought I would go wild. Sleep was out of the question. I tried different Doctors, giving each one a fair

trial, and doctoring nearly three years. My case seemed to baffle them. It was a nervous breakdown caused by overwork and worry. During all this time I could not do any work, and my friends thought it was a matter of time, how long I would live. Someone advised me to try something to build up my system, and I tried different medicines. Finally I thought

Dead Man's Head Thrown Into Canal

Remains of Belgian Re-ferred from Headless Body is Found

HAMILTON, March 13.—The lifeless body of a man, later identified by the police as Thomas (Gordon) Hamilton, 29 years of age, was found early this morning in the old river gravel pit near the High Level Bridge. The discovery was made by Andrew Conn, a Grand Trunk Railway employee, who was on his way to work.

Investigation by Coroner Hamilton revealed one of the most brutal murders in Hamilton's criminal annals. The victim is said to have been a well-known character in the gravel pit and the head was carried from the body in an effort to conceal identification. The remains were also stripped of clothing with the exception of the necktie, which was apparently kept to lead to the DeWitts canal and dropped it into the water current.

Georgie's slayer, made one mile high, through. When the slayer was caught, he was wearing a workman's metal chisel, having a number of 1000. The slayer was a "National Steel Co. Co." dropped out of the pocket. It was by means of this and the slayer was found near the remains that they were identified.

Greater Production Was Discussed By Speakers

Mass Meeting Under the Auspices of the Belleville Production League—All Vacant Property in the City Proposed to be Put Under Cultivation

Under the auspices of the Belleville Production League a mass meeting of the citizens of Belleville was held last evening at the City Hall for the purpose of hearing an important matter discussed, namely, "Greater Production." The attendance was a large one, but those present took a deep interest in the address given by the speakers. The resolutions were carried by a vote of 100 to 0.

The gathering was presided over by Mayor Schuchman, President of the League, and in opening the meeting he briefly outlined the future, namely, to stimulate all in the city to greater production during the coming season.

Looking to Canada:

Mr. John Hildt, manager of the Standard Bank, was the first speaker, and in his closing remarks referred to the great struggle that is taking place overseas. We sometimes may think that the great relief of the universe will bring victory to the allied forces, although we may be shocked by bitter victory. There is one thing we must do, and that is to produce. Where is there a better place than Canada?

Mr. Hildt then spoke of the fact that we have more land in this country than we can cultivate. We must do more than we are doing now. We must produce more. We must produce more. We must produce more.

Mr. Hildt then spoke of the fact that we have more land in this country than we can cultivate. We must do more than we are doing now. We must produce more. We must produce more. We must produce more.

Belgian Troops Drive The Boches Out

PARIS, March 15--Yesterday's official statement says:

"There was strong artillery activity in the Argonne and on the right bank of the Meuse."

"During the day a German machine was destroyed and three others were damaged, falling within their own lines."

"The communication: 'Shortly after breakfast, after a violent bombardment our troops entered the village of Lambart, after killing the occupants of the trenches and first the first line, and then the second line, and then the third line. The enemy then retired to his second line. The artillery was active along the whole front Tuesday, most violently in the Neupont and Dismant sectors.'"

"Army of the West, March 12: French troops had several German machine guns and several German machine guns were destroyed and three others were damaged, falling within their own lines."

ARMY U. S. SURGEON WANTED

RETIRED EDITOR DEAD.

WASHINGTON, March 15.—A call for 3,500 nurses between now and June 1st for service in military hospitals at home and abroad has been made to the Red Cross by Surgeon General Gurnea of the U. S. army. Nearly 7,000 nurses already have been applied for by the Red Cross but need far more nurses imperatively. Daily the number of army hospitals required grows in the United States. General Gurnea estimates that approximately 20,000 will be needed for service in army hospitals during this year.

OWEN SOUND, March 15.—The death took place of James H. H. Little, one of the best-known newspapermen in this section of the province. Born in the city of Owen Sound in 1851, he came to Owen Sound in 1871, where he was employed as a reporter with the C. P. Leader, and a more understanding father for the cause of his early struggle and hard work.

Boys! Canada Wants You to Join Army of Farm Workers

Twenty-Five Thousand Stray Boys From 15 to 10 Needed as Soldiers of the Soil—Mr. Taylor Statton is Superintending—Work is Under the Food Control Bill

One of Canada's war discoveries has been the Canadian boy. Hitherto he has been regarded mostly as a mother's anxiety-cause, of his preoccupation for swimming pools and other portly places and persons. He has been regarded by his dad, who pays the shoe bills and buys his clothes, as something of an expensive luxury.

It has been the latter's custom to discourage the unending youth war—Budding his start in life. He could tell he'd be working hard all summer on the farm and in school in winter; or how he'd be taught school and wintered on a farm in the summer holidays; or how he'd be out here and there in the winter holidays and helped with the springing at Easter.

Dad was quite a wonder for work in those days and, although his child may have accepted that estimate of the value of these experiences with a grain of salt, yet there is no doubt that he was a better man and a more understanding father for the cause of his early struggle and hard work.

Our city and town boys have been used the experiences, training and discipline which have been the corner stone of city success for thousands of years.

They were heard by eight thousand city boys in Ontario alone. In 1915 nearly three thousand responded to the call of duty in the food producing fields. These city lads in their farms made a marked success of it. They were the sons of their country-born dad who took their work seriously. They were high-spirited, plucky, sturdy boys who took their work seriously. They were the sons of Canada's food-producing

tion to a large extent along the great issue in the world's history.

That is just what the war situation is today. It is now a problem of food for our fighting men, food for our allies, food for our kinpeople in Britain. The margin between starvation for millions of people in the allied countries and the victor's surplus, is as narrow as that is alarming.

New Canada asks her boys of 15 years to bear a hand in the great fight for food. Canada wants an army of 25,000 sturdy, plucky boys of high resolve to set their hands to this work during the coming summer. Complete organization of all Canada for supplying the boys has been formed. All boys from 15 to 18 years inclusive are eligible for this youthful army.

The work is directly under the Canada Food Board by Mr. Taylor Statton as national superintendent. Mr. Statton has for years been a leader in boys' welfare work and his record of success with boys and the Y.M.C.A. work marked him as the best man to handle this army of the soil.

The work from March 15 to 25 will be enrollment work throughout Canada. High school teachers, Y.M.C.A. secretaries, newspapermen and others in close contact with boys and their life will act as enrollment officers.

The boys will be distributed among the farmers who need their services and apply to the Provincial Agricultural Departments for same. Officers responsible to the Canada Food Board or the Provincial Department of Agriculture will supervise.

This year, in addition to the wages the boys will earn, they will be present to each fellow who gives three months on farm service, whether he is a city boy, or works on his father's farm, a house lodge or house, which will be a truly a service medal as well as the "knight" title of the hero who has been over the top and in home, honorably discharged. This will be a treasured proof in years to come that the owner did his best, according to his capacity, in the great war.

Such a boy's window at least, it was called Anna's discovery. She had her own home in Finland, where the war was making time, straight. She lived for several months among the Finns of Minnesota, and nobody discovered her secret. Perhaps that was because the folks of the great Northwest have as such pretty good windows full of women's war, as one feels, along the upper found army in New York City.

Remember she got mixed, and went north on Manhattan instead of across the East River into Brooklyn. The day found her idling in front of an attractive shop window on Second Avenue, in Harlem, where there were displayed all sorts of nice things for girls to wear.

She lingered so long that Pauline Lawrence Kerley began to wonder why a boy should be so interested in woman's wear. He roared to a question policeman have relied upon for several months to use if a young man is "right."

He asked, "Where is your registration card?" Of course, Anna had no card. Furthermore she couldn't talk English well, and the policeman took her to a station, where an interpreter was summoned. It didn't take the latter long to discover Anna wasn't new here at all. She was charged in court with misbehaving. The Magistrate found her to be a "bad girl," and sent her to the House of Correction in Ellis Island, which she left only in a few days.

A Good Judge of Whisky

ANY good judge of whisky will tell you that while there are several excellent brands of whisky made in this country, Corby's Special Selected is really The Quality Whisky of Canada. MAKE US PROVE IT. We are quite willing to do so AT OUR OWN EXPENSE under our introductory offer plan, which is that we will send you upon receipt of \$1.75 two bottles, one our regular size large bottle and the other a small trial bottle. When you get them try the small bottle and if you don't like it return the large bottle to us, express charges collect, when we will immediately refund you the full price \$1.75 with nothing more to say. If you have questions as to why you don't like it. Could anyone make you a more convincing proposition?

CHAPTER XXI.

The Party Goes Far.
Paul might have been isolated at occupying the invitation to attend a fashionable party if he had not been so much cordial and friendly terms with his young hostess and her family. He was sure to be kindly treated by the majority of the guests who very properly found the kind of their entertainment. He found that Mark would thank him if he had an opportunity, but for that he had no opportunity. It was clear that Mark was foolishly misled up with an idea of his own consequence, and had been accustomed to look with scorn upon all who were not of the same social plane as himself.

Paul had for some time been fond of reading newspaper and every afternoon, and thought it good policy to use such a way for the first time to the company, paying for installation of the most worthy deductions from their pay. The most morning some surprise was excited at the office by the receipt of a square envelope, of perfume French papers directed to PAUL FORTNER, A.B.D. NO. 91.

"A low letter, I suppose," said the chief, with a smile, as he handed the note to Paul. Paul opened it, and, having no reason for secrecy, passed it to the superintendent.

"An invitation to a fancy dress party," said that official, to surprise. "You seem to be getting thick with the Communists, Number 91."

"Other are very polite and kind," said Paul.

"I suppose you are trying to ingratiate yourself with the young lady," said the superintendent.

"I am too young to think of that," answered the telegraph boy, very seriously.

"What you accept of the invitation?" "Yes, sir."

"I have already decided to go," said Paul.

"You must go in fancy dress," said the superintendent.

"That you know of this letter," said Paul.

"That is all," said the superintendent.

"I think, sir," said Paul.

"From that time, Paul was treated with greater consideration in the office, the chief regarded him as a person of great importance, and he was employed on the most agreeable and desirable commission that came to the office."

On Wednesday morning Paul told to old Jerry, "What he has been told."

"Why, Paul? Will you be kept at the office?"

"No, I am to attend a party," Jerry opened his eyes.

"A fancy dress party? Where, Paul?" "A Fifty First Street. It is a fancy dress party."

"But how came they to invite you?" "I don't know, sir, but I was invited."

"I don't know, sir, but I was invited," said Paul.

Daily Intelligence

Under the provisions of the Intelligence Act, the following information is published for the benefit of the public. It is the policy of the Government to make available to the public as much information as possible, and to keep the public informed of the progress of the war. The following information is published for the benefit of the public.

PATRIOTIC RAILROAD UNIONS

The election laws of the Province are being amended so that traveling railway men may have a better opportunity to vote in municipal elections. This is a concession to which no objection can be raised, says the Toronto News.

The Brotherhood of Railroad Trainmen has played a creditable part in the war. Upwards of a thousand of the members, or more than one in ten of the entire membership, have gone overseas. This is a large proportion when those over age and otherwise ineligible are taken into consideration. Those who have not been able to go to the front are standing loyally by their representatives in khaki. The Brotherhood has kept up the dues of all absentees. It has already paid out nearly \$450,000 to the relatives of men who have died or been totally disabled in active service. This money has all been paid by assessments on the members.

We have the assurance of Vice-President Murchison that the organization will continue to do its share in the defense of Canada and the Allied Cause. The Railroad Unions of the Dominion have manifested a high order of patriotism ever since the struggle began. They recognize that if German imperialism were to triumph there would be an end of democracy and of trade unionism. They are fully represented in the Board of Government by Hon. G. D. Robertson, a Minister who enjoys the confidence of his colleagues and steadily increases his personal prestige in Parliament.

THE FLOOD SUFFERS--

The serious floods caused by the ice flows on the Mohr River have occasioned heavy financial loss to citizens of Belleville and along Front Street have suffered damage from the rapid rise of the water ranging from six to twenty thousand dollars each. The flood conditions this spring are without precedent and the water has passed the highest previous mark in the basement of business establishments on Front Street and destroyed and damaged goods supposed to be placed high and dry above water.

The unusually early winter is responsible for the unusual flood conditions. The wreaths which for weeks at a time have been the zero mark and the abundance of snow all contributed to conditions favorable to spring floods.

To the loss of the merchants must be added the losses of citizens whose houses were inundated by the flood waters and suffered damage to inside and out as well as the destruction of food supplies and furniture, the worst feature of the loss being the fact that there is no insurance rebate.

The sufferers from the flood have the sincere sympathy of citizens fortunate enough to have their personal possessions on high ground where the rubbing waters can hardly reach them.

STRAFFING LIBERAL UNIONISTS.

The Laurierite opposition is off to a bad start. Instead of beginning the parliamentary session in a dignified spirit, as befitted a small but distinguished center, representing practically all departments of a disunited province, the first guns fired are filled with the mud of abuse. The opposition is now base and broken, and has no fear for anything but to express its disapproval of the Watson of December 17 and all that center mourning for her children had nothing Laurierite to be. It is a sad sight to see the substance which has been away for the fleeting shadow of a manly victory.

Mr. Wilfrid Laurier has verbal honor of the government by expending the resources of a rhetorical objection to the proclamation calling Parliament together which contained a typographical error. Not being able to find answers, Sir Wilfrid made fine mistakes, one which is to his skill at magnifying his mistakes.

"Conceded in Infamy."

But it was the War Time Election Act that aroused the old chief's ire to the point of hysteria. It was "conceded in infamy and accorded accordingly," according to the Opposition leader who had figured on gathering in his bosom all the alien-voiced and otherwise, Sir Wilfrid's effort was a masterly exposition of the art of invective.

Mud From Murphy.

Starting where Sir Wilfrid left off generalizing, Hon. Charles Murphy, member for Russell, went into particulars with a savage attack upon Hon. N. W. Rowell, recently leader of the Liberal opposition in Ontario, and high in the councils of the Union Government. The heights and depths of Murphy's abusive tirade knew no limits, and representing as he does a French-Canadian constituency, he as an Irish Catholic held his ground upon the nomination is always secure, he expertly outwitted the opposition.

Mr. Murphy's heavily laden Mr. Rowell the business manager of the Toronto Globe and the proprietor of the Toronto Star in wholesale denunciation, and his speech had all the appearance of a munition piece serial in which each chapter would see the execution of Liberal Unionists who had dared to differ with their leader upon a question of parliament and now must needs be shown that the door of the Laurier party was forever closed to them.

Instead of shutting anybody out of anything worth while it looks as if Laurier-Murphy, et al., were voluntarily retiring into quarantine. It is to be hoped they will be thoroughly disinfected not emerge clean and cheerful, proud of their "bitterness of defeat."

"Political Cockpits."

Mr. Murphy was exceptionally bitter in denunciation of the churchmen, which he charged with being "political cockpits." "There never had been such a deluge of the house of God," said Mr. Murphy, who would have seemed a little more and heartily applauded if the same pulpits had embodied his ideal, Sir Wilfrid Laurier. Mr. Murphy's constant tirade of abuse against Mr. Rowell, under the protection of parliamentary privilege, descended into the baseness of personalities and was so exaggerated as to bring unthinkably to the aid of the sinister brand of distortion and falsehood. Mr. Rowell's absence from the House at the time gave his calumny a free field for unmitigated abuse.

Interest is centered in the next prominent Liberal Unionist to be executed upon the Laurierite guillotine. Hark to the rumble of the tumult.

In And About The City

ALLA MISTAKE
The 21st March, 21st, Front street, station that through a mistake of the present, showed at Kingston that he was detained as an American and that he was released the next morning when the mistake was discovered.

EASY FISHING
Some families residing on Caniton road were fortunate enough to secure their first fish in a rather unique manner. On Wednesday afternoon when the low tide occurred the water was forced into a dry creek at the junction of Mill street and Caniton road. When the water receded, a number of fish were stranded and were easily captured by boys.

PAINT MACHINERY CO. DAMAGE
The story of the food published yesterday the marine reporter in referring to the damage at the Caniton Co. but of the Paint Machinery Co. Limited, stated that the premises are not the property of the Caniton Co. but of the Paint Machinery Co. Limited.

LET THE WOMEN DRIVE THE BUCKERS
Girls and women can do much to help the farmers during the coming summer, especially in the lighter duties about the farm. For instance, Mrs. J. H. Smith, of Belleville, who presided here Monday stated that there was no reason why a well developed healthy woman could not sit on the binder seat and drive a team of horses, no reason why she could not drive a hay rake, or why she could not be capable of doing other light farm work.

SPECIAL SESSION OF COUNCIL
A special session of the County Council was held in this city today. The object of the meeting was to assist in providing means for greater food production during the coming season. At the opening session this morning, Mr. J. A. Yonemura, who is connected with the organization of the County Committee of Toronto, gave an address outlining the object of this important committee and the need there was for greater effort this year to produce more food for the Allies. An effort will be made to induce every farmer in Ontario to reduce at least a score of wheat this season.

YOUTHFUL WARRIOR RETURNS
Private Jack Wallbridge, youngest son of Mrs. John Wallbridge, Manitowish, is home from the front. He is a member of the 10th Battalion, Belleville, Belleville, December, 1916. Transferred as a volunteer to the 10th Battalion, Belleville, December, 1916. He served in the 10th Battalion, Belleville, December, 1916. He served in the 10th Battalion, Belleville, December, 1916. He served in the 10th Battalion, Belleville, December, 1916.

FLOOD SITUATION.
At the house of writing at 1 o'clock this afternoon there was not much change to note in the flood situation. In several sections in the south-western part of the city the water is still rising. The river from the vicinity of Caniton, but it did not have any material effect on the road which extends from the lower bridge to about a mile above the river. The water, however, above the Upper Bridge, rose to such an extent as to overflow a portion of Mill street near Oshawa's manufacturing establishment. The ice in this point and other points adjacent is higher than the water, and nearly up to the top of the high wall which extends from the Upper bridge to near the junction of Church street. In the above at an early hour this morning some slight damage was done to the front of the Belleville Laundry premises adjoining the south-west corner of the Upper bridge. In some of the parts in the rear of Front street premises, the water today was higher than yesterday. On the west side of Front street from the Lower bridge to the Hastings House the basement of one store is flooded to such an extent that not a furnace is available for use. In many of the stores, stores are being used for the purpose of the flood.

The situation at the Upper bridge remains unchanged. At a point just below the Hastings House the water is higher, but today the water at this junction had risen and had the effect of weakening the ice which is holding the immense Rock back. At 2 o'clock the water of a large quantity of ice came down from the vicinity of Caniton, and became blocked up at a point above what is known as the "backing up" of water, and causing the jam in the river to become even more solid.

War Will Make A Man

There is a need for greater leadership and a more sympathetic understanding between those who stay at home and those who are fighting. The war will make a man of every man who is fit for the purpose. It will give him the strength and energy that he needs to do his work. It will give him the strength and energy that he needs to do his work.

French Threaten To Drop English

OTTAWA, March 22.—A movement is on foot among the French Canadian managers of the new Parliament to refuse to take any further part in the work of the House of Commons.

Their spokesmen in the House, some of the new French members, are protesting under the pretext of abstaining from the work of the House, but are actually protesting against the French Canadian members of the House.

In the past the leading French Canadian members have always been regarded as the backbone of the French Canadian element in the House.

But now they are threatening to drop the English and to support the French.

Their spokesmen in the House, some of the new French members, are protesting under the pretext of abstaining from the work of the House, but are actually protesting against the French Canadian members of the House.

Canada's Shipbuilding Program

OTTAWA, March 22.—The great task in the mind of the Government is to build up the shipbuilding industry in Canada.

"THE FRIENDLY VIENNA MANNER"

A reader with a sense of humor will derive much pleasure from some of the Budapest accounts of the Austro-Hungarian food difficulties.

In recent times Austria imports a large quantity of food from Hungary.

But the Hungarians have taken it upon themselves to import into Austria—wherever Vienna has foreign buyers—what they call "the friendly Vienna manner."

ALLIES DRIVE THE HUN BACK IN CONFUSION AMONG SOMME RIVER POWERFUL ATTACKS HEAVILY REPULSED

BATTLE CONTINUES WITH GREAT VIOLENCE ON WHOLE FRONT—ENEMY ADVANCE STOPPED EVERYWHERE BY ALLIES AND DRIVEN BACK WITH APPALLING LOSSES—STRONG ATTACKS DEVELOPED THIS MORNING NEAR BAPAME—GERMAN TROOPS CROSS THE RIVER SOMME BUT ARE THROWN BACK TO EAST BANK BY BRITISH COUNTER-ATTACKS—FRENCH TROOPS HAVE RELIEVED BRITISH OF A SECTOR OF BATTLE LINE AND ARE GIVING FIERCE BATTLE TO ENEMY—"MYSTERY" GUN KILLS WORKSHIPPERS IN PARIS CHURCH—GERMAN ADVANCE STOPPED BY BRITISH ARTILLERY BARRAGE—COUNTER ATTACKS BY ALLIES ARE PROCEEDING—FRENCH TROOPS JUMP EAGERLY INTO THE FRY—HAIG CONGRATULATED BY KING GEORGE AND PRESIDENT WILSON.

Special Despatches to The Intelligence, Canadian Press, Limited.

NOON CALL.

LONDON, March 23.—Today's British official statement follows: The battle continues with great violence on the whole front. Powerful attacks delivered by the enemy yesterday afternoon and evening north of Bapame were heavily repulsed. Only at one point did the German infantry reach our trenches, where they were immediately thrown out. Elsewhere the enemy's attacks were stopped by fire, machine gun and artillery fire in front of our positions and his troops were driven back with great loss.

During the night and this morning fresh strong attacks have again developed in Bapame neighborhood. The British have repulsed them. South of Frenche bodies of German troops which had crossed the river between Liéart and Brie were driven back to the east bank by our counter-attacks.

BRITISH COUNTER-ATTACKS.

LONDON, March 23.—The British this morning were counter-attacking between Neuf and Ham. Reuter's correspondent at British headquarters reports. The French also were in action. North of Bapame, he states that the Germans were attacking in considerable force at dawn but did not get through the British barrage.

GERMAN ADVANCE YESTERDAY.

British Army Headquarters, March 23.—A further advance late yesterday by the Germans at some points along the battle front is recorded.

PRESIDENT WILSON CONGRATULATES.

WASHINGTON, March 23.—President Wilson today eulogized Field Marshal Haig, congratulating him on the British stand against the German offensive and predicting final allied victory.

KILLED IN A CHURCH.

PARIS, March 23.—The main gas that one of the shells fired in the direction of Paris yesterday by the Germans struck a church in the suburbs. Several persons who were attending the Palm Sunday services were killed.

KING GEORGE HAS PRESENT FIELD.

LONDON, March 23.—King George has sent Field Marshal Haig a telegram of encouragement and appreciation of the gallant work of the troops under his command.

SHEER WEIGHT OF NUMBERS.

British Army Headquarters, March 23.—The Germans have been pushing forward by sheer weight of numbers with the assistance of artillery. In the region between Bapame and Peronne the British fell back again somewhat in the fighting late on Sunday. This marked the main success of the enemy, whose progress is being contested bitterly step by step.

WHAT GERMAN'S CLAIM.

BERLIN, March 23.—(Official)—The Germans are now standing to the north of the Somme in the middle of the former Somme battlefield. Bapame was taken in the night. In the evening Neuf was taken by storm, the statement adds. British, Americans and French were thrown back through a pathless wooded country. "More than 45,000 prisoners and more than 600 machine guns have now been captured," claims the German statement.

PAILED TO REACH OBJECTIVES.
LONDON, March 23.—Copies of the German plan of offensive in the Somme, according to Reuter's correspondent at British Headquarters, show that the enemy's objectives were as follows:—

"First day, average penetration along the whole front of attack, eight kilometers; second day, three kilometers; and on the third day, beyond which the enemy does not appear to be varied, 20 kilometers. The success attained thus far falls much short of these objectives, the despatch states."

The German, whether seeking a way to the great cities or Paris, are in a great hurry, they are reported.

500 Munition Wagons Blown Up Near Mons Thirty Germans Were Killed and 100 Others Injured

LONDON, March 23.—Thirty German soldiers were killed and more than 100 others injured, and 500 munition wagons were blown up by an explosion at the Meriville station near Mons, Belgium, according to an Exchange Telegraph dispatch from Amsterdam. The Germans had stock of enormous munition trains under camouflage sheds at Meriville.

WILLARD-FULTON GO.

Joe Willard has filed things so that he will go down in history either as the equal of other great heavy weight champions who preceded him or will go down as all. Amusement makers that arrangements have been practically completed to bring the champion and Fred Fulton together for a bout on July 1 means more to looking than any single happened since Jack Johnson collapsed under Willard's hammering at Havana. Joe returned the last barrier to the bout by signing in light under the management of Col. J. C. Miller, one of the owners of the Hot Ranch, and a wealthy Oklahoman, who in turn secured the services of Fulton, through his manager, Mike Collins.

Under the agreement reached between Collins and Miller, Fulton is guaranteed \$20,000 for the fight, which is to be held at the Hot Ranch, Okla. No site has been picked for the bout, although several promoters have already bid for it. The managers of the two fighters want the fight to go more than 20 minutes, and Willard has expressed a willingness to fight to a finish. However, the manager of rounds will be governed by the laws of the state in which the successful fighter is located.

Now the Media Wants It.
One of the first "prose" board

from was J. W. Randolph, wealthy mine operator of New Mexico, who has offered a purse of 100,000 to stage the fight in his country. The offer was made in January, 1915. He stipulated, however, that 50 per cent of the earnings of the pictures must go to some charity. Domestic Turfists of New Orleans is another who wants to stage the fight.

The intention of the attorney-general of Oklahoma that the fight could be held in 1912 and that Willard was planning to fight it in 1913, which idea that Col. Miller might attempt to hold the fight in the south. Many other promoters will offer bids for it, but it is likely that the bout will be conclusively settled in any city before April 1.

Today Willard is on his way home from Mexico. Fred, where he and his family have been wintering, is expected to return to the United States in a few days. He is expected to purchase a new home, he will

meanwhile and Collins and Willard the attitude of the fight. Fulton, in the meantime, has agreed not to engage in any fight before meeting Willard, which means that his bout with Humphreys will be called off.

It was a peculiar series of circumstances that led up to the meeting between these explanation, experts of boxing. It was Fred Fulton who was selected to meet the champion in his last fight. He was a two-year ago. A local fight, scheduled against Fulton. It was contended that he was too much of a novice to fight and Frank Moran was chosen in his stead.

As a matter of fact, Fulton's record reads much better, better than that of the champion. His record long with Carl Morris, in which Fulton fought, started another bout against him. Unusually charged with being "tough," the Minnesotan has gone ahead and

gradually forced the champion to give him recognition.

Fulton defeated Chapman. Fulton won a fight in every age in Blue Rapids, Kan. He stands 5 feet 11 inches tall and weighs 225 pounds. He has a much about as much weight as Willard and has a deadly punch in either hand. His first fight of consequence was with Al Fisher in 1914. In the next year he met Willard and he was to have dropped the champion. Next he fought against the champion in a knockout.

Willard has been humbled into the loss. Healed from the fight, he is divided because of the fact that he has been content to appear in a crowd attraction instead of defending his title. He has chafed considerably. Recently he declined boxing offers to box, and offered to give his share to the Red Cross.

Denver Wants the Fight.
James O. Hamill, Denver promoter, announced only that he would take \$10,000 to stage the championship fight.

Denver promoter, it was said, had been asked to bid for boxing the match there.

A Week of Dedication and Preparation for the Side of the Army of Greater Food Production

The Ontario Gazette

PUBLISHED BY AUTHORITY
TORONTO, SATURDAY, MARCH 26, 1916

Commencing March 24th

So imminent is disaster to the cause of the Allies through starvation—that the special Proclamation His Honor the Lieutenant-Governor, as reproduced here, has been made to

- All County Councils to convene an extraordinary meeting on March 23rd to discuss ways to increase Food Production.
- All clergymen to proclaim from their pulpits on March 24th the terrible truths of the 1918 food situation.
- All citizens to co-operate loyally in the sacred cause of producing more Food this year.

The Crisis is with us—the time of Sowing is at Hand—the responsibility up in Ontario is great.

Farmers Preparation Week for Some Suggestions

His Equipment

1. Oil and mend harness. Provide extra shoes and harness straps.
2. Fill and refire horse collars, fit the harness collars.
3. Sharpen harrow teeth, plow coulters and plow points.
4. Repair or sharpen cultivator teeth.
5. Tighten up or replace all bolts on rollers, disks, cultivators and mure spreaders.
6. Make three and four horse engines for combining two harnessed into one. Procure a couple of spare whiffletrees.
7. Take a day to get all springing machinery near the doors of shed.
8. Gather up wrenches, hammers, files, chisels and punches into an easily carried kit.
9. Get spraying machinery in perfect working order.

His Horses

1. Feed work horses a little more grain and give them as much work as possible.
2. Hitch collars onto three and four-horse teams with older horses.
3. Groom often to remove all the dead hairs possible before heavy work starts (spring weather).
4. Bathe shoulders now to keep them cool and dry every night, as soon as shoulders come off, to harden and toughen.
5. And the spare horse in condition more work can be accomplished during sowing by changing horses.

Seed

1. Clean and reclean all home-grown seed.
2. Test all seed for germination.
3. Purge cover root and vegetable seed right away.
4. Prepare formalin for treatment of seed of grain, seed of potatoes and spray material for fruits and vegetables.
5. Sift all seed for quick and easy handling at sowing.
6. Order 2000 more seed than normal, as germination may be poor, necessitating thicker seeding.
7. Order seed potatoes now and be sure the seed is good.

The Land

1. Open all old water furrows with shovel or hoe.
2. Make new water furrows to low spots in fields.
3. See that all drain outlets are running freely.
4. Roll all mud down as soon as dry enough to break up horses. This helps down stones and upheaved clods plants.
5. Sow red clover seed on fall wheat on light, frosty mornings.
6. Repair the fences now.

Crop Plans

1. Prepare to sow your earliest land to spring wheat, then barley, oats and peas in order named. Plant potatoes by May 15th.
2. The annual potato-to-be sown all your potato land for harvest sowing grain for next winter's crop.

Best Mixture

1. One bushel of wheat
1 bushel barley
2 bushels clover
2 bushels timothy
2 bushels alfalfa
2 bushels vetch
2 bushels lucerne
2 bushels sainfoin
2 bushels vetch
2 bushels lucerne

Germans Made
Goggles Groggy
Hint of Diabolical Plot Against United States Aviators

SAN DIEGO, Cal., March 25. — Major John C. P. Bartholomew, commander of the Blackwell field aviation school at North Island, near here, posted an order that all aviators make by a certain date a visit with a German aviator should be turned in to the officers or stationed in the rear. The aviators have been in two at North Island, Kelley Field, Torrey, and at other training schools for aviators.

The bulletin posted by Major Bartholomew's orders and that Dr. J. E. Day, of Carriage Institute at Washington, had made a thorough investigation of the goggles, and declared that they rendered the power of vision more than 100 per cent. Dr. Day reported his findings to the chief signal officer at Washington, and that officer had warnings sent immediately to the aviation schools and troops.

Trouble with the goggles had been reported at North Island by Major J. C. P. Bartholomew, former master of the U.S. Navy, who is now training there, and by other students of the Blackwell field school. They reported that in many cases they had misjudged their altitude to a serious extent when making landings.

Lack of Food Threatens the Battle Line

"The food wanted by men kind does not exist. The word 'shortage' is not strong enough."

The whole world is up against a nasty thing, familiar to the people of India, called famine. Lord Rhoads, British Food Controller.

One year ago, only the enemy was on railroads.

To-day, Great Britain, France and Italy, are on railroads.

To-day, Germany controls the wheat lands of Roumania, Russia, Poland and Ukraine.

To-day, the shadows of hunger, famine, disease and death hang over the Allies.

Upon the 1918 crop from Canada and the United States depends the fate of the democratic peoples of the world.

If that crop is sufficient the Allies can be fed.

If that crop is not sufficient the Allies may have to accept a German peace.

That Battle-Line in France and Flanders Must Not Want

Do you realize what a German Peace would mean to Canada?

Germany covets our natural resources—our agricultural and mineral wealth, our forests, our fisheries, everything that is Canada's.

Germany won't be satisfied with European territory, with teeming masses, wrangling factions and depleted natural resources. She wants colonies—big, thinly-populated countries in temperate zones for her sons and daughters to go to propagate their kind.

The Kaiser would sacrifice millions of Germans to-morrow if he thought that by so doing he could set foot on Canada's shores as Conqueror.

And what's more, the Germans would offer themselves for the sacrifice, so great is their subjection to the military ideal.

The only thing that balks German ambition is that battle line from the North Sea to Switzerland—and the British Navy.

The Only Thing That Sustains Our Men on Land and Sea—Is Food

What are we, each one of us, prepared to do to insure that Food supply?

Germany, by her submarine campaign, has so far cut off the British Mercantile Marine, shrink in volume.

Germany has seen South America, Australia, New Zealand, India and far away outlets of the Empire practically cut off from supplying food to the Motherland because of the lack of ships.

Forty million Allied men and women having been put on war work, food production has dangerously decreased in Europe.

These forty million consume more food than when they were in ordinary occupations, and there are fewer men for farming. Hence an increased demand and decreased supplies.

The harvest of France was one-third less in 1917 than 1916, and this year must be smaller still, owing to lack of fertilizers, which cannot be supplied through shortage of shipping.

The world's decrease in live stock, as compared to 1913, is approximately 115,000,000 head.

Herbert Hoover Says:

"Our European Allies are dependent upon us for greater quantities of food than we have ever before exported. They are the first line of our defence. Our money, our ships, our life blood, and next least of all, OUR FOOD supply, must be of a common stock."

"In pre-war times, Britain, France, Italy and Belgium yearly imported more than 750,000,000 bushels of grain, plus vast quantities of meats and fats."

"The submarine destruction of shipping has made it necessary to abandon the hope of bringing food from South America, Australasia and India."

"Food must, therefore, be shipped from Canada and the United States—the nearest and safest route."

"Canadian and United States supplies are normally 350,000,000 bushels short of the Allied needs. By greater production and conservation Canada and the United States must combine to increase the export of grain by 150,000,000 bushels."

"The remaining shortage of 200,000,000 bushels must be overcome by greater reduction in consumption in the Allied countries. And this is being done by Britain, France and Italy rationing their food."

"From two and a half years of contact with the German Army have come out of the horror with the complete conviction that autocracy is a political faith and a system that directly endangers and jeopardizes the future of our race—that threatens our very independence. It has, however, been able to command a complete inspiration of devotion and self-sacrifice in its people to the interest of their nation."

"The German farmer, in the name of the Fatherland, supports a nation two-thirds as large as the United States and threatens to subject the world from an area one-half the size of Ontario. 'My Vision of war is not of an academic problem to be solved by discussion. To me it is a vision of brave, dying men and suffering women and children, for service on whose behalf the greater exertion of the Allies' farmers comes as a direct necessity and a direct plea. The Canadian and the United States citizen who sees war as it is, needs no inducement and no inspiration but the thought that every spade full of earth turned, and every animal reared is lessening human suffering and guaranteeing the liberty of the world.'"

Lloyd George's Warning

"If fear the disciplined people behind the German Army, the rationed family and the determined German, the bone of our bones, the mother to stand and starve—so that their fighting men may be fed—I fear it more than the Imperialism of the world."

Britain is now on Food Rations. France is now on Food Rations. Italy is on the verge of starvation. Only continuous support from us can enable us to hold out.

Only with a disciplined people behind, can we win the war. The rationed British Nation, the bone of our bones, the mother to stand and starve, by paying the price and sharing with France and Italy their limited stock of food. For in this there

is mighty price, a conscious measuring of their glory with the best traditions of ancient Sparta, and of Imperial Rome, for Britons know that upon them rests the burden of saving humanity. The story of their service shall ring and echo forever along the hill tops of history."

To Send More Food to Our Allies Is Not Charity

It is war. The Allies have a right to demand it. They have a right to demand the offer of only what is "left over." Those who are fighting the common battle for civilization and for our protection have a higher claim than had Lazarus, to only the "crumbs that fall from the rich man's table."

The Canadian people must recognize that Our Allies have the first claim on our food supplies.

As the shipping situation makes the Allies dependent upon North American continent for food, it is vitally necessary that Canada should increase her production of food in order to take a larger part in providing for the Allies' requirements. This is especially urgent as the maintenance of a large United States army in Europe will cause a very heavy drain on that country's food resources.

There must be no peace without victory.

For nearly four years Germany has been a fighting machine against the powers of law and order. She has failed so far to make good her escape from her booty by superior strength and skill. And now she is attempting to gain the upper hand by intrigue, suggestion, device and propaganda to divert the attention of her antagonists from the struggle itself, and thus to gain her ends by relaxing the strength and skill of her antagonists. What she can gain from these tactics is plain to all the world in the sorrowful experience of Russia.

Germany's most dangerous weapon is not her Zeppelins—that is obsolete. Not her submarines—that can be overcome. Not her machine-like army—that has been repeatedly hurled back by the living armies of freedom. Her most dangerous weapon is her propaganda of peace.

While we with her hands she murders and despoils, with her voice she invites to parleys.

When Liberty is in Peril There is Threat of Lasting Disaster in the Very Word "Peace"

Lord Leverhulme, long known in Canada as Sir William Lever, who knows well the German mind in a recent interview stated:

"You will never be able to dictate terms to Germany. It is beaten. The argument you mention is founded on the dangerous fallacy that because Germany is sick of this war she is sick of war in general. She isn't. I doubt if her Government is even sick of this war. You've read the speech of the Herr Dringard, Herrling. Is there any sign of repitance in the speech? Is it a chastened speech? Is it the speech of a statesman who wants to disarmament and a league of nations? No! Germany is back in her mood of 1914. She believes she is winning the war. She believes she has won now. And if we talk peace she HAS won it. Why? It would be better a thousand times that every man in England should be dead than that Germany should issue such a word with the feeling of a conqueror. You hear people use the phrase, 'to the last man, and the last shilling,' and you think it is only a bit of rhetoric, but to my mind it's the most

solemn and absolute truth. I mean when I say it that it was very, very close to a million times better for the people of those islands to be dead every one of them, rather than live on as the heirs of a triumphant Prussian."

How can any lover of liberty remain inactive to this peril?

Food is Victory and the world made safe for democracy.

Lack of food means disaster and subjugation to Germany.

The Citizens of Ontario Must Lead This Mighty Crusade for Greater Food Production

They did it last year and will do it again.

As the greatest food-producing Province, Ontario must maintain her leadership in America. Great are our opportunities, our responsibility is tremendous.

Upon every man and woman, boy and girl, rests a personal obligation to serve. Every pound of food produced, in whatever form, is a contribution to the Cause of Freedom.

Ontario farmers should show 500,000 acres of spring wheat.

Every Ontario farmer whose land is at all suitable should put an extra five acres into wheat, even at the expense of another crop.

What YOU Can Do to Help

At all costs production must be maintained. That's why farmers and farmers' sons are being exempted from military service. Working on a farm is equivalent to service in the Second Line Trenches.

To enable farmers to do the work of two factors are essential. The first is Time. Whatever we are to do must be done at once. Nature waits for no one. The second is Labor. Many farmers cannot plant the acres they would because they cannot get the necessary help. Many are afraid they would not be able to cultivate a harvest of unusual crop after they had raised it.

The burden is not one to be placed solely upon the farmer. Neither by intrigue, suggestion, device and propaganda to divert the attention of her antagonists from the struggle itself, and thus to gain her ends by relaxing the strength and skill of her antagonists. What she can gain from these tactics is plain to all the world in the sorrowful experience of Russia.

ATL. Mr. City man, don't say that the farmer should do so-and-so, and thus allow criticism in this hour of our Nation's peril to cripple your effort.

Remember, the farmer can't be hastily undegraded the value the city man can be to you.

Get Together in the Fight for Liberty

Let us not lament what MIGHT BE, but earnestly fight what MUST BE.

Fifteen thousand boys between the ages of fifteen and nineteen must be organized as "Soldiers of the Soil" to work on Ontario farms this season.

Farmers can get one or more of these boys by applying to their District Representatives or to the Public Employment Bureaux at Toronto, Ottawa, Hamilton or London.

Unmarried men, exempted from military service, are urged to take up farm work. Married men who have had previous experience on a farm are urged to resume farm work for a season. Employers of labor are asked to assist men to take up farm work.

We urge the farmers and the townsmen to get together for greater production in the interests of a free people and democracy.

Let the Organization of Resources Committee, your District Representatives or the Public Employment Bureaux act as your intermediaries.

When we have done our best, the cry for food cannot be wholly met.

For the rest—our Allies are tightening their belts.

THE ROMANCE OF THE RED TRIANGLE

What the Y.M.C.A. is Doing for Our Soldier Boys

BY WILLIAM LAWREN EMMETT

When, during the years, decades and centuries following the close of the war, historians write their volumes and when, in the future, chroniclers of nations as well as of cities and nations, will, in the distant future, write their volumes, it will be the story of the Y.M.C.A. that will be the most interesting and the most important.

Just as in no previous age, ancient or modern, has there been a war approaching in magnitude that was being waged, was it with equal truth he said that never in all previous wars had there been a work in connection with the war as important as the work of the Y.M.C.A. in the present.

Over the soldier boy gone in response to the call of "Y" men from France to the back, and where

Remember the Marne!
Huns Cannot Win!

Written for The Intelligencer by J. J. B. Flint.

A wave of depression has swept over us which in my opinion is not merited. In order to sustain this view let me in a few words review the past history of the war.

Germany's forty years of preparation had placed her in possession of the greatest army the world had ever seen, complete in the last degree, every preparation taken. Krupp had furnished her with cannons and implements of war by surpassing in power and effect everything in the history of the world. As a fighting machine the army justified the Kaiser's remark to Colonel Roosevelt who was present at a great review that "With this army I can whip the world."

Lord Roberts' Warning.

Labeled to sleep, the present Allies had no idea of Germany's plans. In vain did Lord Roberts, Sir John French and other experienced officers prepare for the attack. They were treated as dreamers by the High Command, who laughed them in scorn and punished Lord Roberts by taking his office away from him.

The war was launched. The "confidentially little army" was all that Britain could send across the North Sea to meet this prepared and stupendous host. The Germans outnumbered their opponents at least forty to one. Their artillery power was enormous. Their great divisions of Death, Head Onwards were in splendid formation.

From Marne to the Marne.

At Marne the armies met. The Huns in massed formation poured upon the ranks of the Allies. Their guns ploughed and lashed through their ranks. The Allies were driven. For five consecutive days they retreated. Turn by turn they shot and died, devoid of food much of the time, sleepless, without water frequently, their guns without ammunition. The wing of the Allies under Smith-Dorrien received the impact of the masses, who knew well that if they turned the left wing it was a mortal blow. Smith-Dorrien sent the left wing, which, with their leader at their head, they stopped retreating, and with desperate courage hurled themselves at the foe. How they fought, this you will find in history. They drove the enemy back and saved the army.

For John French said: "I say without hesitation that the saving of the left wing could never have been accomplished unless a commander of rare and unusual courage, integrity and determination had been present to personally conduct the operation." General Smith-Dorrien, and his men, men thus achieved eternal fame.

Victory at the Marne.

Then came the Marne. The foe was within a short distance of Paris. The Huns in victorious masses had driven back the Allies. York-Lark had only to continue his advance and Paris must have fallen. But the Allies said: "Thus far shall you come, and no further." They drove the demons at the throat of the Huns. They performed prodigies of valor and they drove them back and saved Paris.

The world stood astounded. How was the miracle accomplished? By the splendid and heroic valor of the Allies.

Think of those wonderful deeds achieved when the Allies, few in number, with few guns, hurled back and bay the victorious masses of Germanic hordes.

Huns Cannot Win Now.

Now that the Allies are fully prepared, in the light of past history we cannot and will not. Remember the lessons of the Crimean War at Varna and the Marne. Now, and never will fail.

The attack in the West is the last thing which could have happened. I pointed out recently in a letter that the Huns might attack Babouk and Groves, and have no more of it. It would be a disaster to the Allies. For there, three times this ally army had been poured up in Babouk.

There also the strong possibility of their passing through Switzerland, covering and capture Italy and enter France through the poorly guarded back door. They have tried to win this in their attack on the West front. It is the mode of deception. To win the war they must first defeat the Allies before the United States can send their full strength. That is their plan.

If Japan ever kept severe the million and half German and Austrian prisoners in Siberia she will at least work for the Allies. We will win.

If Germany could win the war at Marne, the Marne and Verdun with her immense army, how can she win now against the splendidly prepared army of the Allies? The flag of the Allies will never be lowered to the Huns.

"WHEN HE IS NEAR"

(Toronto Times).

O God, Thou who art the author of peace and love, and of mercy, in knowledge of Thy strength and Thy eternal life, we are here, in perfect freedom: defend us, Thy humble servants, from all assaults of our enemies, that we may surely reaching to Thy land, never be put from the power of any adversaries, through the might of Jesus Christ, our Lord.

Lord of all power and might, who art the author, and giver of all good things: Grant in our hearts the love of Thy Name, increase in us true religion, make us full of good works, and let Thy great mercy keep us in the same, through Jesus Christ, our Lord, Amen.
